

## System Development Phases & Activities

Project: BMH Intranet

Phase	Sub-Activity	Status	Progress	Notes
1. Requirements Analysis	Requirements Gathering	Complete	80%	Stakeholder interviews completed
	Use Case Documentation	Complete	0%	All scenarios documented
	Requirements Validation	Complete	50%	Approved by stakeholders
	Requirements Sign-off	Complete	0%	Formal approval received
	Phase 1 Total	Complete	32%	All deliverables completed
2. System Design	Architecture Design	Complete	50%	System architecture finalized
	Database Design	Complete	0%	Schema and ERD completed
	UI/UX Design	Complete	70%	Minor revisions pending
	Technical Specifications	Complete	0%	Documentation finalized
	Design Review	Complete	80%	Approved by the technical team
	Phase 2 Total	Complete	37.5%	Minor UI revisions remaining
3. Development	Frontend Development	In Progress	0%	Main components completed
	Backend Development	In Progress	0%	API endpoints in development
	Database Implementation	In Progress	0%	Tables created, procedures pending
	API Development	In Progress	0%	Authentication done, CRUD in progress
	Integration	Pending	0%	Basic connections established
	Phase 3 Total	In Progress	0%	Backend focus needed

4. Testing	Unit Testing	In Progress	0%	Frontend units tested
	Integration Testing	Pending	0%	Test cases prepared
	System Testing	Pending	0%	Test environment setup
	User Acceptance Testing	Pending	0%	Waiting for system completion
	Performance Testing	Pending	0%	Test scripts prepared
Phase 4 Total		In Progress	0%	Early testing phase
5. Deployment	Production Setup	Pending	0%	Environment planning started
	Data Migration	Pending	0%	Migration scripts planned
	Go-Live Activities	Pending	0%	Deployment plan drafted
	Post-Deployment Support	Pending	0%	Support procedures defined
	Documentation	Pending	0%	User manuals planned
Phase 5 Total		Pending	0%	Planning phase

Overall Project Status: **58% Complete**

Status Legend

- **Complete** - Activity finished
- **In Progress** - Currently working on
- **Pending** - Not started yet
